August 23, 2019

Mr. Brandon Hebert
Talos Petroleum LLC
625 East Kaliste Saloom Road
Lafayette, Louisiana 70508

Dear Mr. Hebert,

Reference is made to the following plan:

Control No.	S-7960
Type	Supplemental Development Operations Coordination Document
Received	June 3, 2019 and amended on June 11, 2019
Lease(s)	OCS-G 06898, Block 989, Viosca Knoll Area (VK) OCS-G 07923, Block 27, Mississippi Canyon Area (MC) OCS-G 09771, Block 28, Mississippi Canyon Area (MC)

You are hereby notified that the approval of the subject plan has been granted as of August 23, 2019, in accordance with 30 CFR 550.270(b)(1).

This approval includes the proposed activities for Wells A034 in MC Block 27, A035 in MC Block 28, A036 in VK Block 989, to drill a sidetrack for Wells A009 in MC Block 27, A015 and A027 in MC Block 28, A022 and A033 in VK Block 989, and the revision of air emissions for Platform A (Complex ID 24130) in VK Block 989.

In accordance with 30 CFR 556.901(d), additional security may be required for your proposed activities. Prior to conducting activities in which you need to obtain approvals and/or permits described in 30 CFR 550.281(a) from the appropriate District Manager or BSEE Regional Supervisor, you must contact BOEM Risk Management Operations Group by email at boemrmog@boem.gov to determine if additional security is required and comply with any demand for this security.

The projected NO_x emissions amounts in your plan were calculated using historic fuel consumption rates. Maintain monthly records of the total annual fuel consumption for the drilling rig with a limit of 371,842 gallons/year and provide the information to the BOEM Regional Supervisor, Office of Leasing and Plans, Plans Section (MS GM235D) annually by February 1st of each year, beginning in the year 2020. If no activities were conducted during a calendar year, provide a statement to that effect in lieu of the required records. If at any time during your activities these records indicate that your NO_x annual emissions may exceed the annual limit approved in your plan or the total annual fuel consumption limit, you must immediately prepare a revised plan pursuant to 30 CFR 550.283 to include the recalculated emissions amounts. You will not proceed with the actions that could cause the potential annual increase in emissions until the revised plan has been submitted to and approved by BOEM.

In response to the request accompanying your plan for a hydrogen sulfide (H₂S) classification, the area in which the proposed drilling operations are to be conducted is hereby classified, in accordance with 30 CFR 250.490(c), as "H₂S absent."

Exercise caution while drilling due to indications of shallow gas, faulting, and abnormal pressure.

Our review indicates that there are pipelines in the vicinity of Platform A that may pose a hazard to your proposed operations. Therefore, take precautions in accordance with Notice to Lessees and Operators No. 2008-G05, Section VI.B, prior to performing operations.

You must comply with the following species protective measures in all activities conducted pursuant to the plan:

- BOEM Notice to Lessees and Operators (NTL) No. 2016-G01, "Vessel Strike Avoidance and Injured/Dead Protected Species Reporting" (available at <http://www.boem.gov/BOEM-NTL-No-2016-G01>);
- BOEM NTL No. 2016-G02, "Implementation of Seismic Survey Mitigation Measures and Protected Species Observer Program" (available at <http://www.boem.gov/BOEM-NTL-2016-G02>); and
- BSEE NTL No. 2015-G03, "Marine Trash and Debris Awareness and Elimination" (available at <https://www.bsee.gov/sites/bsee.gov/files/notices-to-lessees-ntl/alerts/ntl-2015-g03.pdf>).

These measures are designed to promote environmental protection, consistent environmental policy, compliance with environmental laws, and safety.

If you have any questions or comments concerning this approval, please contact Leslie Wilson at (504)736-2588.

Sincerely,

**MICHELLE
PICOU**
